demonstration

202/A

Product code	Description
--------------	-------------

12500/01	Rotary Evaporator Strike 202/A - Slanting version - automatic uplifting - 220V - 50Hz. The unit is supplied with a glass refrigerator in slanting version, 1000ml evaporation flask, 1000ml collecting flask and the steam passing pipe.
----------	--

12500/02	Rotary Evaporator Strike 202/A - Slanting version - automatic uplifting - 115V - 60Hz. The unit is supplied with a glass refrigerator in slanting version, 1000ml evaporation flask, 1000ml collecting flask and the steam passing pipe.
----------	--

12500/03	Rotary Evaporator Strike 202/A - Slanting version - automatic uplifting - 240V - 50Hz. The unit is supplied with a glass refrigerator in slanting version, 1000ml evaporation flask, 1000ml collecting flask and the steam passing pipe.
----------	--

12500/04	Rotary Evaporator Strike 202/A - Slanting version - automatic uplifting - 220V - 50Hz. The unit is supplied with a plastic coated glass refrigerator in slanting version, 1000ml evaporation flask, 1000ml plastic coated collection flask and the steam passing pipe.
----------	--

12500/05	Rotary Evaporator Strike 202/A - Slanting version - automatic uplifting - 115V - 60Hz. The unit is supplied with a plastic coated glass refrigerator in slanting version, 1000ml evaporation flask, 1000ml plastic coated collection flask and the steam passing pipe.
----------	--

12500/06	Rotary Evaporator Strike 202/A - Slanting version - automatic uplifting - 240V - 50Hz. The unit is supplied with a plastic coated glass refrigerator in slanting version, 1000ml evaporation flask, 1000ml plastic coated collection flask and the steam passing pipe.
----------	--

202/B

Product code	Description
--------------	-------------

12500/10	Rotary Evaporator Strike 202/B - Vertical version - automatic uplifting - 220V - 50Hz. The unit is supplied with a glass refrigerator in vertical version, 1000ml evaporation flask, 1000ml collection flask and the steam passing pipe.
----------	--

- Oil bath up to 180°C
- Tap for Bath emptying
- Bath overfilling level control

12500/11	Rotary Evaporator Strike 202/B - Vertical version - automatic uplifting - 220V - 50Hz. The unit is supplied with a glass refrigerator in vertical version, 1000ml evaporation flask, 1000ml collection flask and the steam passing pipe.
----------	--

- Oil bath up to 180°C
- Tap for Bath emptying
- Bath overfilling level control

12500/12	Rotary Evaporator Strike 202/B - Vertical version - automatic uplifting - 220V - 50Hz. The unit is supplied with a plastic coated glass refrigerator in vertical version, 1000ml evaporation flask, 1000ml plastic coated collection flask and the steam passing pipe.
----------	--

- Oil bath up to 180°C
- Tap for Bath emptying
- Bath overfilling level control
