

PTR 30/60

The Grant-bio life science PTR-30 and PTR-60 multi-function rotators provide all that is required for thorough mixing of microtubes, for reproducible sample preparation.

Product no. 13250/06

PV 1

Ideally sized for personal use, the Grant-bio PV-1 vortex mixer is compact, with a low profile and small footprint, to sit in almost any location.

Product no. 13250/07

Combi-spin PCV-2400

The Grant-bio Combi-spin and Multi-spin equipment are combined centrifuge/vortex mixers for spinning and mixing of microtubes and 0.2ml strips.

Product no. 13250/08

Multi-spin PCV-3000

the Grant-bio Combi-spin and Multi-spin are combined centrifuge/vortex mixers for spinning and mixing of microtubes and 0.2ml strips

Product no. 13250/09

PCH-1, 2

The Grant-bio PCH personal bench top cooler/heaters are ideal for life science laboratory applications requiring cooling and heating in microtubes within the temperature range of -10 to +100°C

Product no. 13250/10

PHMP

The PHMP microplate thermoshaker is for use with all types of standard depth 96- and 384-well plate

Product no. 13250/11
