

Batteries, Chargers, Adaptors

Battery Chargers

- Robust ABS plastic case with LED light indicators

- Battery test function

- Can charge different battery types at the same time

- 10995/01 Trickle Charger holds four circular batteries & 1 x PP3 9 volt block battery

- **10995/02** has selectable fast or trickle charge and facilitates four circular batteries and 2 x PP3 9 volt block batteries

- To prevent overcharging **10995/02** will switch to trickle charge after two hours of fast charge

- Supplied with a 1.5 metre mains cable and instructions for use

Rechargeable Ni-Cad Batteries

A range of high quality rechargeable Ni-Cad batteries. They have low internal resistance, and provide high continuous discharge currents. Each battery is capable of at least 700 full charge and discharge cycles.

Product No	Voltage & Type	Output
10994/01	1.2 volt AAA	180mAh
10994/02	1.2 volt AA	500mAh
10994/03	1.2 volt AA	700mAh
10994/04	1.2 volt C	1800mAh
10994/05	1.2 volt D	2000mAh
10994/06	8.4 volt PP3	200mAh

Long Life Alkaline Batteries

A range of super-heavy duty mercury-free batteries. All are leak-proof and are ideal for most battery powered appliances, including applications where a heavy duty discharge capability is required. All batteries have an 18 months shelf life.

Product No	Voltage & Type
10993/01	1.5 volt AAA
10993/02	1.5 volt AA
10993/03	1.5 volt C
10993/04	1.5 volt D
10993/05	9 volt PP3
10993/06	6 volt 4FD
